Beavers: Curriculum Integration Guide

Show off what you learned about Beavers!

True or False?

- ___ 1. Beavers create habitat for other animals.
- ___ 2. Bank Beavers are a different species than beavers that build lodges.
- ___ 3. Beavers are active during the day.
- ___ 4. A beaver knows what direction a tree will fall when it gnaws it down.
- ___ 5. Beavers eat only plants... not fish!
- ___ 6. It takes 2 or 3 nights for a beaver to gnaw down a tree that is one foot wide.
- ___ 7. Beavers hibernate in winter.
- ___ 8. Beavers eat wood as they gnaw down trees.
- ___ 9. Beavers kill trees when they gnaw them down.
- ___ 10. Beavers use their tails to carry and pack mud.

Why did people trap beavers from the 1500s through the 1800s?

How are beavers related to Westward Expansion?

List any other facts you can remember about beavers on the back of this paper.

An Audubon naturalist visited your child's classroom today! Now we would like to invite you to the Nature Center. Bring this sheet with you and receive a free admission. (Children & adult members are always free!)
