An Audubon naturalist visited our class.

We learned about Citizen Science!

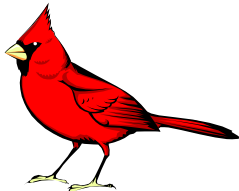

Frog Songs: Draw lines to match the frog song with the correct frog name.

Peep peep peep Green Frog
Gunk gunk gunk Bullfrog
Brrrrummmmm Spring Peeper

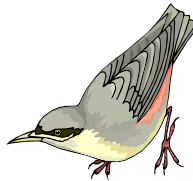

ANSWER
KEY

Name That Bird: Match each bird with its name. Write these names under the correct bird:

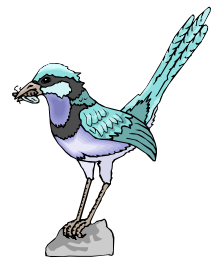

Nuthatch, Cardinal, Blue Jay.

Cardinal

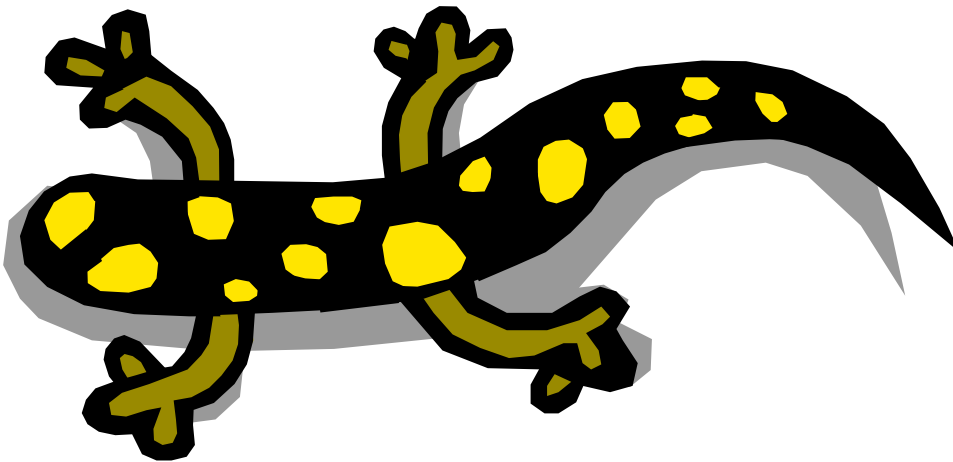

Nuthatch

Blue Jay

Measure the Salamander: Use a metric ruler to measure this salamander.

Snout to vent:

Range: 5 - 6 cm

Snout to tail:

Range: 12 - 13 cm

A citizen scientist gathers data for professional scientists to help them with their research projects. If you could help a scientist, what would you most like to do? It might be one of the projects we talked about, or something entirely different. Write and/or draw about your dreams on the back of this sheet.
