What is It? *Growing Up WILD* is an early childhood interdisciplinary curriculum that builds on children's sense of wonder about nature and invites them to explore wildlife and the world around them. Through a wide range of activities and experiences, *Growing Up WILD* provides an early foundation for developing positive impressions about the natural world and lifelong social and academic skills. Activities are designed to meet Head Start Domains and NAEYC Accreditation Criteria.

Who is it For? This early childhood curriculum is perfect for teachers and caregivers of children aged 3 to 7 years old.

Workshop Date: Tuesday, October 5, 2010 **Space limited. Reservations required.**

Jamestown Public Schools K-1 Teacher Registration: now through September 15.

Registration opens to the general public September 16-22.

DEADLINE TO REGISTER: Wednesday, September 22, 2010
